English

Khmer

FULL STACK DEVELOPER

Own Project

Jan 2020 - Jul 2020

- Consulted with engineering team members to determine system loads and develop improvement plans.
- Managed development milestones from initial steps through final delivery.
- Took initial concepts and developed project plans.
- Adjusted design parameters to boost performance and incorporate new features.
- Conducted unit testing to deliver optimal browser functionality.
- Developed landing pages, dashboards and online applications using Django, React and PostgresDB.
- Crafted SEO strategy and intuitive interface for site to achieve prominent rankings across top browser platforms.

FULL STACK SOFTWARE ENGINEER

Own Project

Jul 2021 - Dec 2021

- Adopted engineering best practices and delivered highest quality scalable solutions.
- Paired with fellow engineers to brainstorm ideas, debug problems and review code.
- Worked with customers to define requirements and troubleshoot issues and architected and implemented new engineering applications to meet needs.
- Designed and implemented scalable application programming interfaces.
- Developed complex software and systems deploying one or more programming languages.
- Created and maintained service desk diagnostics and job aids and reviewed with technicians to confirm clarity.
- Created powerful Content Management Systems to serve as interface for client.
- Performed development, debugging, optimization and automation to support implementation of products and applications.
- Understood full technology stack and underlying applications, services and databases, resulting in optimal program performance.
- Developed landing pages, dashboards and online applications using React Native, Hasura and GraphQL scripting.

STORAGE ENGINEER

Freelancer

Apr 2021 - Oct 2021

- Developed, implemented, supported and maintained data analytics protocols, standards and documentation.
- Designed and developed analytical data structures.
- Developed and modified programs to meet customer requirements.

WEB DEVELOPER

Freelancer

Oct 2021 - Feb 2022

- Provided front-end website development using React, React Saga and other library.
- Ran debugging tools such as Chrome Inspector to eliminate flaws and glitches prior to publishing.
- Coded websites using React, SCSS, TypeScript and Redux.

ACCOMPLISHMENTS

- The top one of CS Cup Cambodia(Competitive Programming in Cambodia) for 2020 and 2021 with 1st rank.
- Resolved product issue through consumer testing.
- Collaborated with team in the development of all working.
